The Community Hospitals Need Us—NOW!

Dear Patient and Friend of Neurology Associates:

Due to the imminent, unexpected departure of two of our physicians, we will need to make some very difficult, but TEMPORARY, changes in the schedules of some of our physicians. These changes will take effect beginning March 1, 2011.

Please understand that your health is our primary concern. Unfortunately, due to the upcoming departure of two of our physicians, we have been forced to make last minute changes in the clinic schedules of some of our providers. These TEMPORARY changes are needed to fill a void in the coverage of our sickest patients—those that are hospitalized. Although all of our physicians will continue to see patients in the clinic, the schedules of some of these providers will be shortened in order to accommodate hospital coverage.

We fully expect to return to a normal clinic schedule for all of our providers once additional physicians can be recruited to cover our area hospitals. Our full intent is to do whatever possible not only to accommodate you with the most current appointment possible, but also to address any urgent needs in an even timelier fashion.

Over the years we have come to greatly admire and respect the kindness and understanding of our patients. We hope that you will continue to trust us with your care and confidence as we strive to meet this emergent call to duty of our community hospitals.

Sincerely,

Neurology Associates
